### eCommerce Website Completed in Only 1 Month!

Red Horse Design helped Laurel Barnhart of Interiors by Laurel launch her new website for her innovative concept, Top of the Boot. Some of the website's highlights include a full eCommerce catalog and shopping cart as well as many other marketing and business tools!

The site also has Twitter and Facebook buttons to help Top of the Boot with internet and social media marketing. The website, [www.topofthebootllc.com](http://www.topofthebootllc.com), has been a particularly fun one to do since I had the opportunity to help direct a photo and video shoot which will be used to promote the site online.
